## Service Technician – Electric Motors

### ***Our Business***

Regal Beloit is a successful global organization with a reputation for excellence in research and design, product quality, manufacturing and service.

Regal New Zealand is a major national distributor of mechanical and electrical products. We import and market a comprehensive range of industrial products for complete electro mechanical, power transmission and speed control systems. Our broad product range covers the complete offering from motors, motor control & drives, gearboxes, brakes and couplings through to winding wire, insulation material, cables and varnishes to name a few.

### ***The Role***

This is an exciting opportunity for a qualified electric motor service technician to join our busy Auckland service team.

Reporting to the Service Manager you will be required to overhaul, service, rewind and repair all types of electric motors. You will need sound knowledge of AC & DC electric motors and generators. Registration with the EWRB would be beneficial but not mandatory.

The role will require your technical competence matched with customer service skills. You will need to be an excellent communicator, organized and have the ability to prioritize and consistently exceed our customer expectations.

### ***Skill Set***

- Prior experience as an Electrical or Mechanical fitter, Registered Electrician, Armature Winder or Electric Motor Rewinder
- Diagnosing/fault finding skills
- Ability to use initiative, and operate effectively in a busy environment
- Excellent verbal & written communication skills.
- Be able to work as part of a close-knit team.

\*only successful candidates will be contacted for interview\*

If this sounds like you we encourage your application. Please forward your resume along with cover letter to [Caroline.Kennedy@RegalBeloit.com](mailto:Caroline.Kennedy@RegalBeloit.com)
